Senior Campaign Finance Analyst

I have filed a second amendment to the 30 day Post General Report (original FEC-151865). I sent you a letter by US mail explaining the changes. I was not aware that our software would allow me to send an electronic message to you.

The contributions listed as for the primary were actually for the general election. They were marked "primary" due to typographical errors (failure to change codes) on my part. They are all properly coded in the amended report.

You are correct that I failed to file 48 hour notices for two contributions that were received on October 29, 2004. I had erroneously marked October 28, 2004 on my calendar as the last day for 48 hour reports. The contributions were properly reported in the 30 day Post General Election Report.

I am working to set up an accounting/reporting system that will prevent such errors from occurring in the future.
